

Are some people more at risk than others?

Infections caused by VRE mainly occur in hospital patients, particularly those whose immune systems are compromised, those who have had previous treatment with certain other antibiotics, those who have been in hospital a long time and those in specialist units

Further information

If you have any questions that we have not answered in this leaflet, please ask your nurse or doctor caring for you on the ward or contact one of the Infection Control nurses.

For Eastern services, call 01392402355

For Northern services, call 01271 322680

PALS

The Patient Advice and Liaison Service (PALS) ensures that the NHS listens to patients, relatives, carers and friends, answers questions and resolves concerns as quickly as possible. If you have a query or concern, please contact:
