

Salaried Dental Service

What to expect at your initial appointment special care patients

The Salaried Dental Service provides dental treatment for patients with additional needs and disabilities where attending a routine dentist may be more difficult.

The service also provides general anaesthetic and sedation treatment for children who require simple extractions of multiple teeth.

dentist or other health professional involved in their care.

We see patients at our dental access centres in Exeter and Barnstaple, and at satellite clinics in other parts of Devon.

Medical history form

We require all patients to complete a medical history form; this can be found on our website:

Parking at all our sites is limited. Please allow enough time to find a parking space before your appointment. You have to pay for parking at most of our sites. Disabled parking is free, but you may need to register to ensure that you can park for free. Information is displayed in each car park.

The service is very busy, so please let us know straight away if you are unable to attend the appointment. This means we can offer the appointment to someone else and we will do our best to find another appointment for you as soon as possible.

If you do not attend and fail to notify us, we may have to discharge you and you will need to be referred again.

Phone lines are open Monday to Friday (9am to 5pm).
