

About your truss

**Surgical Appliance Department
Tel: 01271 322492**

What if I get pain around the hernia?

If you have pain around the hernia, remove the truss and urgently consult your doctor.

What if I find the truss uncomfortable?

If you feel that the truss is not comfortable or if it fails to retain the hernia, then please contact the Appliance/ Orthotic Department to arrange an appointment with the orthotist. He will be able to advise you or adjust the truss for you. If this is not possible, then consult your doctor.

Further information

If you have any questions or need more information, please contact the Surgical Appliance/Orthotic Department on **01271 322492**.
