

Heart Failure Patient Initiated Follow-Up (PIFU)

PIFU direct tel: **01271 311633**

Monday Friday, 8.30am 4.30pm (excluding bank holidays)

Patient-initiated follow-up (PIFU) puts you, the patient, in control of when you are seen by the heart failure department. It means spending less time attending hospital appointments, but still having access to clinical support when you need it.

When your heart failure is well controlled on optimum medications, follow-up appointments are unlikely to be necessary. You may experience worsening heart failure signs or symptoms
